Dipping light
Jordi Canudas

marset

On it is mesmerizing: its different shades of paint filter the light creating a magical ambience. Off it transforms into a multi-coloured glass sphere, with a strong aesthetic impact. The paint acts as a shade, colouring the light and giving it texture. The pendant version of the Dipping Light sheds all unnecessary elements and retains only what is essential: colour takes centre stage. It is available in three different diameters: 5, 8, 12 and 15,7 inches.

Dipping light 13
