

Clara

Chiara Caberlon

*in collaboration
with Marco Forbicioni*

Clara nasce dal concetto di “portare la luce ovunque tu vada”. La classica lanterna è stata rivisitata in chiave moderna e pratica, trasportabile ovunque, grazie a un corpo batteria ricaricabile tramite porta USB-C, con una durata fino a 8 ore. Nella versione small, il corpo batteria della lanterna, una volta estratto dalla sua posizione, può diventare anch’esso una lampada da appendere dove si preferisce. Nelle versioni medium e large, la sorgente luminosa può essere rimossa con una maniglia, e utilizzata come torcia separatamente.

Grazie alla sua natura ibrida, tra esterno e interno, tra retrò e moderno, la linea Clara offre un’illuminazione versatile, dinamica e trasversale.

Clara was born from the concept of “bringing the light wherever you go”.

The classic lantern has been given a modern practical twist thanks to a battery body that is rechargeable via USB-C port, with a life of up to 8 hours.

In the small version, the battery body of the lantern, once extracted from its position, can also become a lamp to hang where you prefer. In the medium and large versions, the light source can be removed with a handle, for use as a torch.

Thanks to its hybrid nature, between exterior and interior, between retro and modern, the Clara line offers versatile, dynamic and transversal lighting.

STRUTTURA / FRAME**DIFFUSORE / DIFFUSER****ACCENSIONE / SPEGNIMENTO
SWITCHING ON / OFF****VERSIONE SMALL**

Sollevare la lampada e inserire da sotto il corpo illuminante magnetico e agganciarlo.

VERSIONE MEDIUM & LARGE

Ruotare la maniglia di 90° in senso antiorario ed estrarre il corpo illuminante. Dopo averlo acceso, riposizionarlo con la maniglia nell'apposito spazio, ruotando di 90° in senso orario fino a fine corsa per consentire il corretto bloccaggio.

UTILIZZO E RICARICA

Ruotare la parte luminosa fino al primo scatto. Il primo scatto è la posizione "spento". Ruotare fino a fine corsa in posizione di estrazione. Sganciare e tirare verso di sé il blocco luminoso, che si staccherà facilmente dalla base. Inserire il caricatore nella presa elettrica e posizionare l'estremità magnetica del cavo su quello del corpo luminoso.

SMALL VERSION

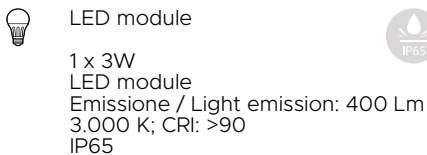

Lift the lamp and put the magnetic light bulb in from below and attach it.

MEDIUM & LARGE VERSION

Rotate the handle 90° anti-clockwise and extract the lighting body. After turning on the lighting body, reposition it with the handle in the appropriate space, rotating 90° clockwise until it reaches the end of its travel to allow correct locking.

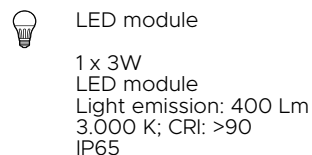

HOW TO USE AND RECHARGING

Rotate the luminous part up to the first click. The first shot is the "off" position. Rotate all the way to the extraction position. Unhook and pull the luminous block towards you, which will come off easily from the base. Insert the charger into the electrical socket and place the magnetic end of the cable on that of the luminous body.

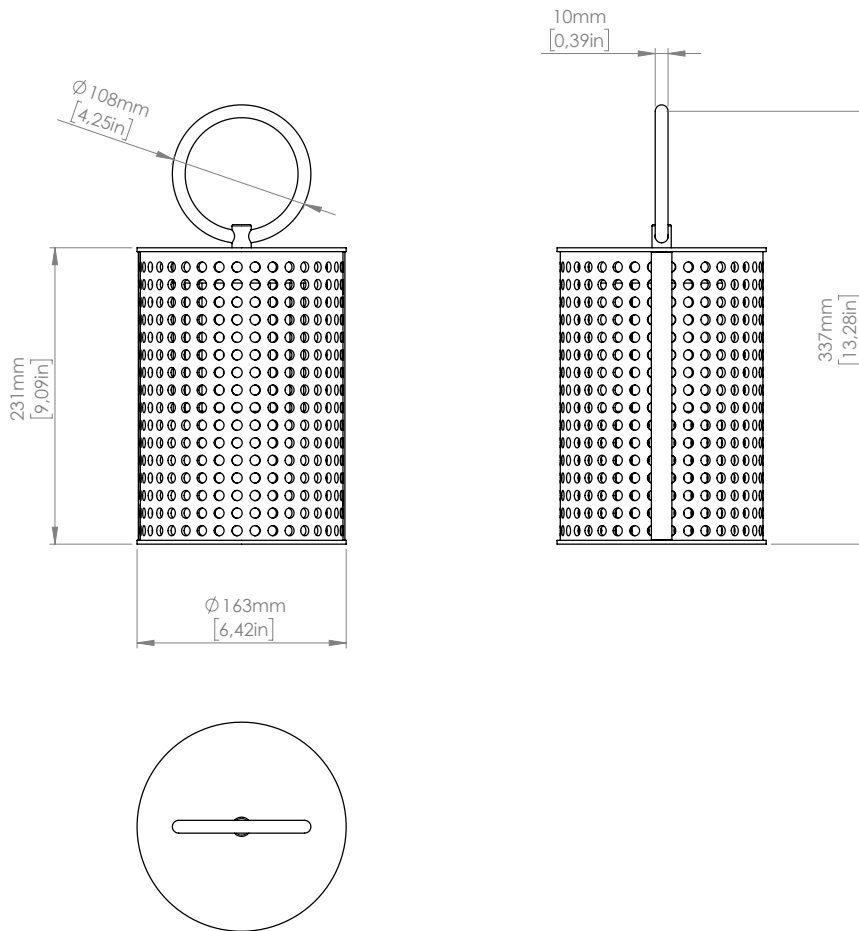

FONTE LUMINOSA / LIGHT SOURCE**220-240V**

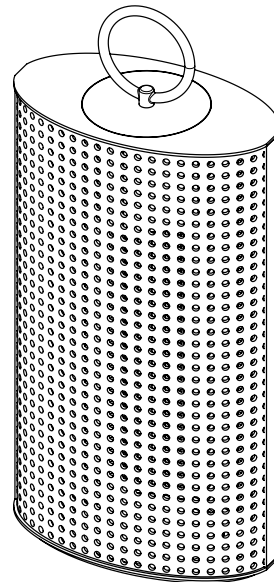

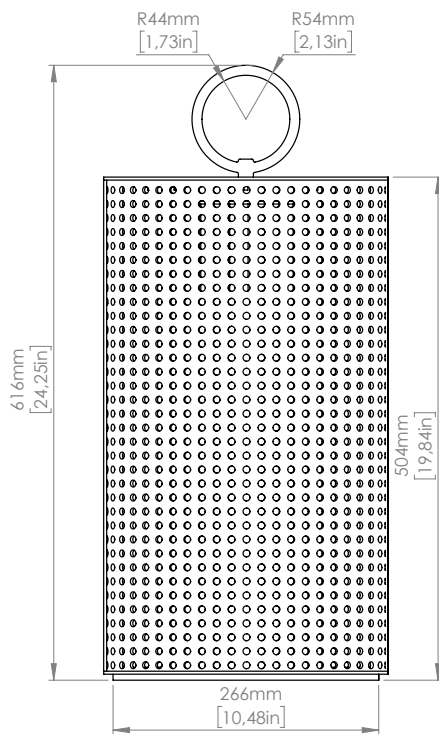

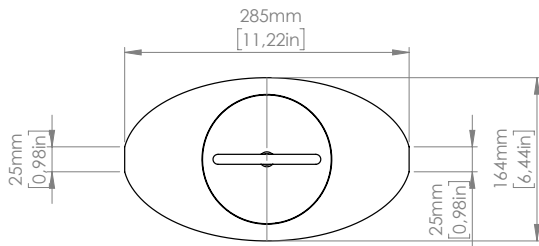

Autonomia: 7/8 ore
Cicli di vita: 600
Tempi di ricarica: 4 ore
Cavo USB tipo C fornito,
