

approx 1.2kg (2.6 lb)

PENDANTS: one

CANOPY: copper canopy 58mm (2.3") diameter

LAMPING: 20w xenon or 1,8w LED

COPPER LENGTH: 500mm (19,5")

INSTALLATION: preset length, composed during installation

MATERIALS: blown glass, flexible copper tubing,  
electrical components, brushed copper mounting plate

WEIGHT: approximately 1,2kg (2,6lb)

TRANSFORMERS: remote mounted (fixture does not hook directly to a junction box)  
1 transformer sent for every 3 pendants

#### DESCRIPTION

The 'sc' designation in this variation on the 28 refers to it being surface-mounted with flexible copper tubing. The surface light has a 15mm (0,6") deep by 58mm (2,3") in diameter copper mounting plate designed to be mounted on walls as well as ceilings.

28 is an exploration of specificity in manufacturing. Instead of designing form itself, here the intent was to design a system of making that yields form. Individual 28 pendants result from a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for a low voltage (12V, 20W) xenon light source.

28 pendants are designed to cluster in hexagonal shapes which nestle into each other to create patterns as dictated by the needs of the interior. They may also be clustered or composed in an ambient manner similar to their distant cousins the 14's.

Standard 28's are made with clear glass exterior spheres and milk white interior lamp holder cavities. 28's are possible with infinite versatility in colour compositions, sizes and shapes.

The 28sc is designed to be used as a wall and ceiling treatment for a wide range of environments. It consists of a single illuminated 28 pendant wired to a flexible copper extension tube, which is intended to be manipulated and formed to create a desired projection aesthetic.

#### NOTES

- + Purchase replacement lamps online at [www.bocci.ca/lamps](http://www.bocci.ca/lamps)
- + Unless otherwise noted when ordering, all chandeliers will be outfitted to be xenon compatible.
- + Requires transformers to be remote mounted
- + Unless otherwise specified, a single class 2 transformer will be sent with every 3 surface lights.
