The Bank Pendant is an indoor, semicircular pendant crafted from opal or smoke mouth-blown glass and black powder-coated aluminum fittings. The opaque glass gently diffuses 360-degree light from any E27 bulb, creating ambience and providing excellent task lighting. The pairing of opaque glass and fine metal lends the product enduring quality, tactility and longevity. A special fitting with a wire ensures that the unique glass shade can easily be adjusted to hang evenly.

## About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
