AXIA

PENDANT

PRODUCT DETAILS

In lush, rich colors and boasting a sexy, substantial middle, the Niche Modern Axia pendant makes a gorgeous addition to any environment. The Axia is part of the new Crystalline Collection which embraces playful, fresh colors and bold, defined angles but never strays far from Niche's core, signature design principles of simplicity and elegance in modern lighting. Try a grouping of 3 or more for maximum impact. Each Axia pendant is blown by hand with love in New York.

SPECIFICATIONS

Hand-blown glass

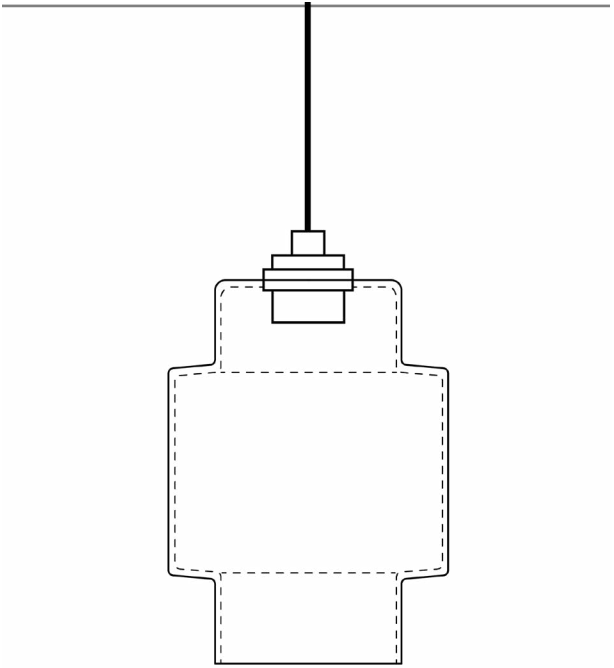

Includes: Glass Axia shade, 4' black cord and 5" black ceiling canopy. See tear sheet for more information.

DIMENSIONS

9.25"H x 6.75"W

CHOOSE A CANOPY FINISH

Choose from one of our 4 unique finishes to blend in seamlessly with your space! All Niche canopy kits include a 5" domed ceiling canopy, mounting plate & screws. The canopy will cover any standard sized opening and allows for installation directly into an electrical box.

CORD SETS

HOW LOW CAN YOU GO?

The standard 4’ length that comes supplied with your Niche pendant should work for most installations. Your electrician can easily adjust the height up or down before installing so you can get it just right.

“A little higher. Now a little lower. Ok, perfect!”

AT THE END OF YOUR ROPE?

All Niche cord sets can be cut on site to the desired length. To find out how much cord length you need just take the measurement from the floor to the ceiling and then subtract that from the distance from the floor to the bottom of the glass. It’s easy and we’re always here to help make sure you have exactly what you need.

STANDARD 4’ BLACK CORD SET

Our 4’ black cord set comes standard with your order, but you can also select from longer lengths or choose the sleek and chic silver cord.

Cord sets are available in both 120 and 240-volts. Take a look at the [map page](#) to find out what type of voltage you need for your installation.

THE CRYSTALLINE SERIES

INCANDESCENT BEACON BULB

The warm amber glow of the vintage style filaments in the Beacon bulb will provide a nostalgic feel to any environment. This multi-voltage bulb is 30 watts at 120v and 60 watts at 240v. We recommend that you install on a dimmer so that you can adjust the mood and feel.

LED BEACON BULB

Available in 120v and 240v options, the LED Beacon Bulb features a single, uninterrupted filament rather than a segmented one. This clear, sleek bulb is also dimmable and transitions smoothly between varying levels of brightness.

LED FROSTED BEACON BULB

The LED Frosted Beacon Bulb looks stunning in our more opaque glass options and casts an even, uniform beam of light.

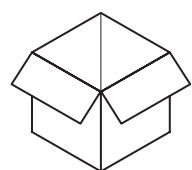

- 100-120V
- 220-240V

The Crystalline Series pendants can accommodate both 120 and 240-volt settings. 120v bulbs are included. Please call or email us for 240v bulb options.

INSTALLATION

IN A NUTSHELL...

1 SET DROP LENGTH

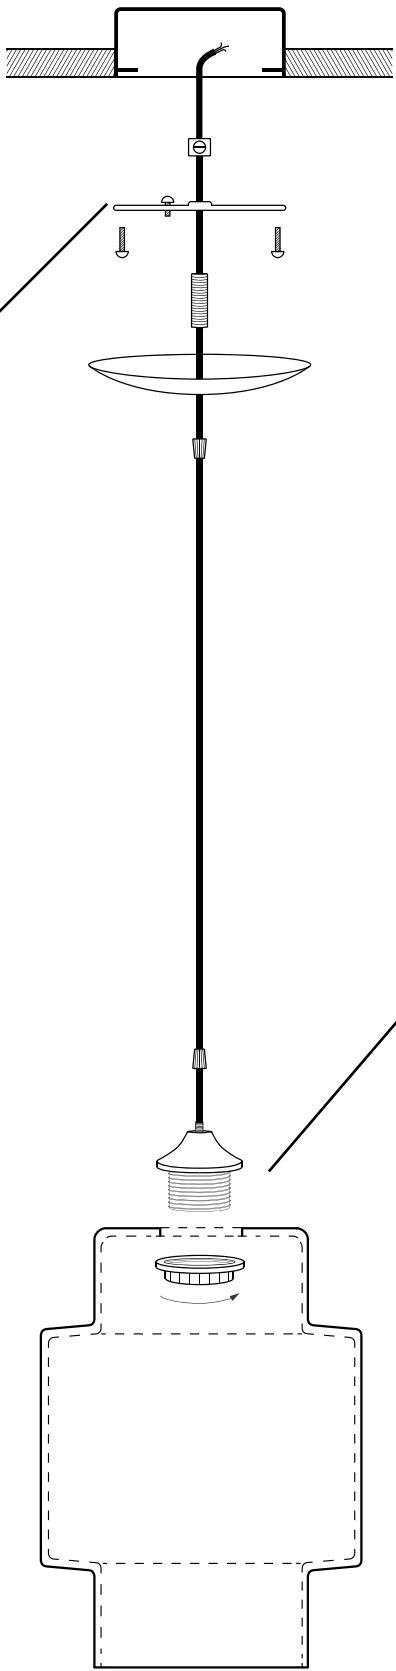

Measure twice, cut once! Make sure your pendant hangs at the right height by setting your drop length ahead of time.

2 WIRE IT UP!

Your pendant includes everything you need to install directly into an electrical junction box. Thread the wire-end of your cord through the included parts of the canopy kit, as pictured. Connect the light fixture wires to the wires in the junction box, followed by attaching (E) the crossbar & (C) the canopy.

Your electrician will be able to help you with these steps!

3 THE FINAL MOMENT

When attaching the glass shade onto the cord, remove (J) the shade ring from (I) the threaded socket. When doing so, it is important to grip (H) the socket cover on the top, both the shade ring and the socket cover can unscrew. Hold the socket cover in place when re-attaching the shade ring to hang glass and when removing glass to clean.

Finally, insert your bulb & flip the switch!

CAUTION

Be sure the power is turned off by either removing the fuse or shutting off the circuit breaker. Installing your Niche pendant is pretty straightforward, but we always suggest that you work with a certified electrician to ensure proper installation. An electrician can also install your lights on a dimmer switch if using dimmable bulbs. This is highly recommended.

STANDARD CANOPY KIT INCLUDES

- A MOUNTING SCREWS
- B NIPPLE PIPE
- C CANOPY
- D WIRE STRAIN RELIEF
- E CROSSBAR
- F CANOPY STRAIN RELIEF
- G GLASS STRAIN RELIEF
- H SOCKET COVER
- I THREADED SOCKET
- J SHADE RING

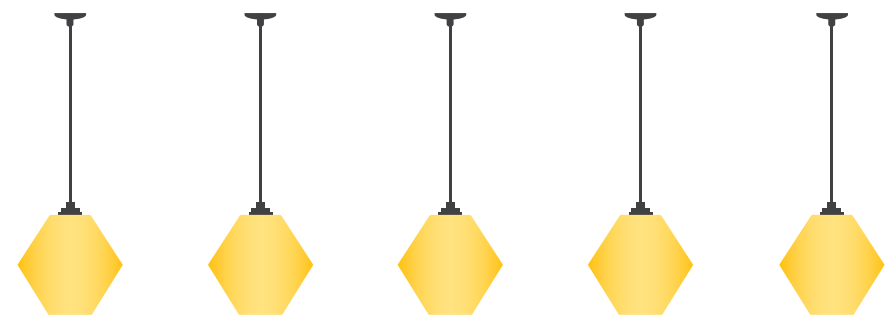

MULTI-PENDANT

INSTALLATION IDEAS

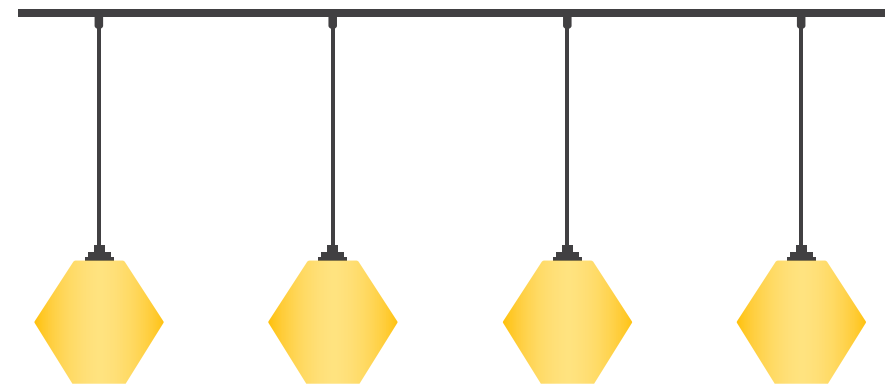

MULTI-PENDANT

INSTALLATION IDEAS

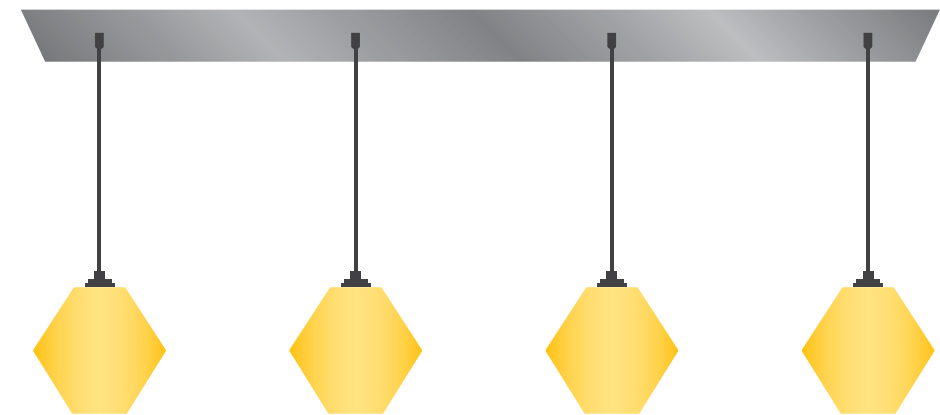

INDIVIDUAL JUNCTION BOXES

All Niche pendant lights ship with an individual canopy included. This allows for installation directly into a standard junction box. Selecting multiple pendants whether its 2 or 3 above a kitchen island can help visually define your space. Each will require a separate junction box but the 5” dome canopy provides for a classic look that works with multiple pendants.

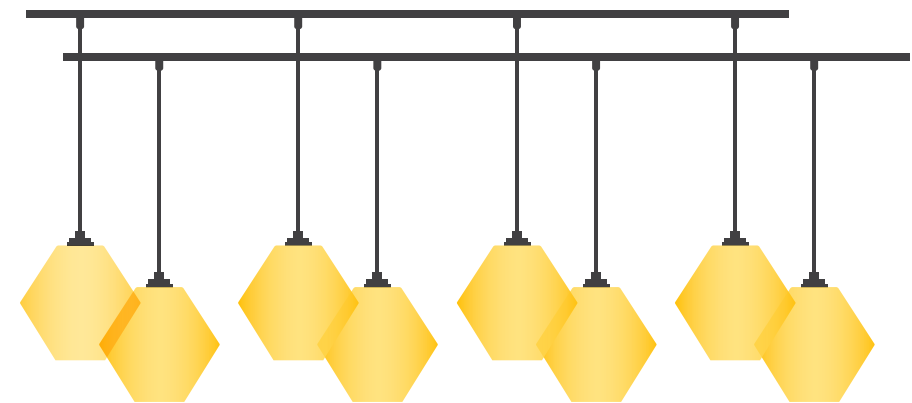

SINGLE TRACK

Have a narrow area that needs more than one pendant? Another way to suspend multiple pendants is on a single track system. Niche pendants are compatible with Halo, Juno, and Lightolier tracks. You will want to be sure they are line-voltage. Our pendants will not function properly if the track is intended for low-voltage. Your electrician should be able to supply and wire our cords directly into the track connectors depending on the system you choose. We do recommend consulting your electrician prior to purchasing!

LINEAR MULTI-FIXTURE CANOPY

Electricians aren’t cheap, so if you want to avoid having your electrician go through the hassle to install more than one junction box then a Multi-Fixture Canopy is definitely one way to go. Choose from a number of our Linear or our Circular canopies and you’ll only need one electrical junction box to illuminate 2, 3, 4, 5, or 7 multiple pendants. Looking to install more than 7? We can custom create something for you, just ask.

DOUBLE TRACK

Just like a single track, a double track system can allow you to hang multiple pendants over a narrow area. Using a double track system will definitely create more depth than a single track system. For a more layered effect we suggest this method of installation. With a skilled electrician or handy-man you can even embed the track system within the ceiling to create a hidden track system. Again please make sure that your track system is line voltage and always check with your electrician prior to installing.

INSPIRATIONAL

DRAWINGS

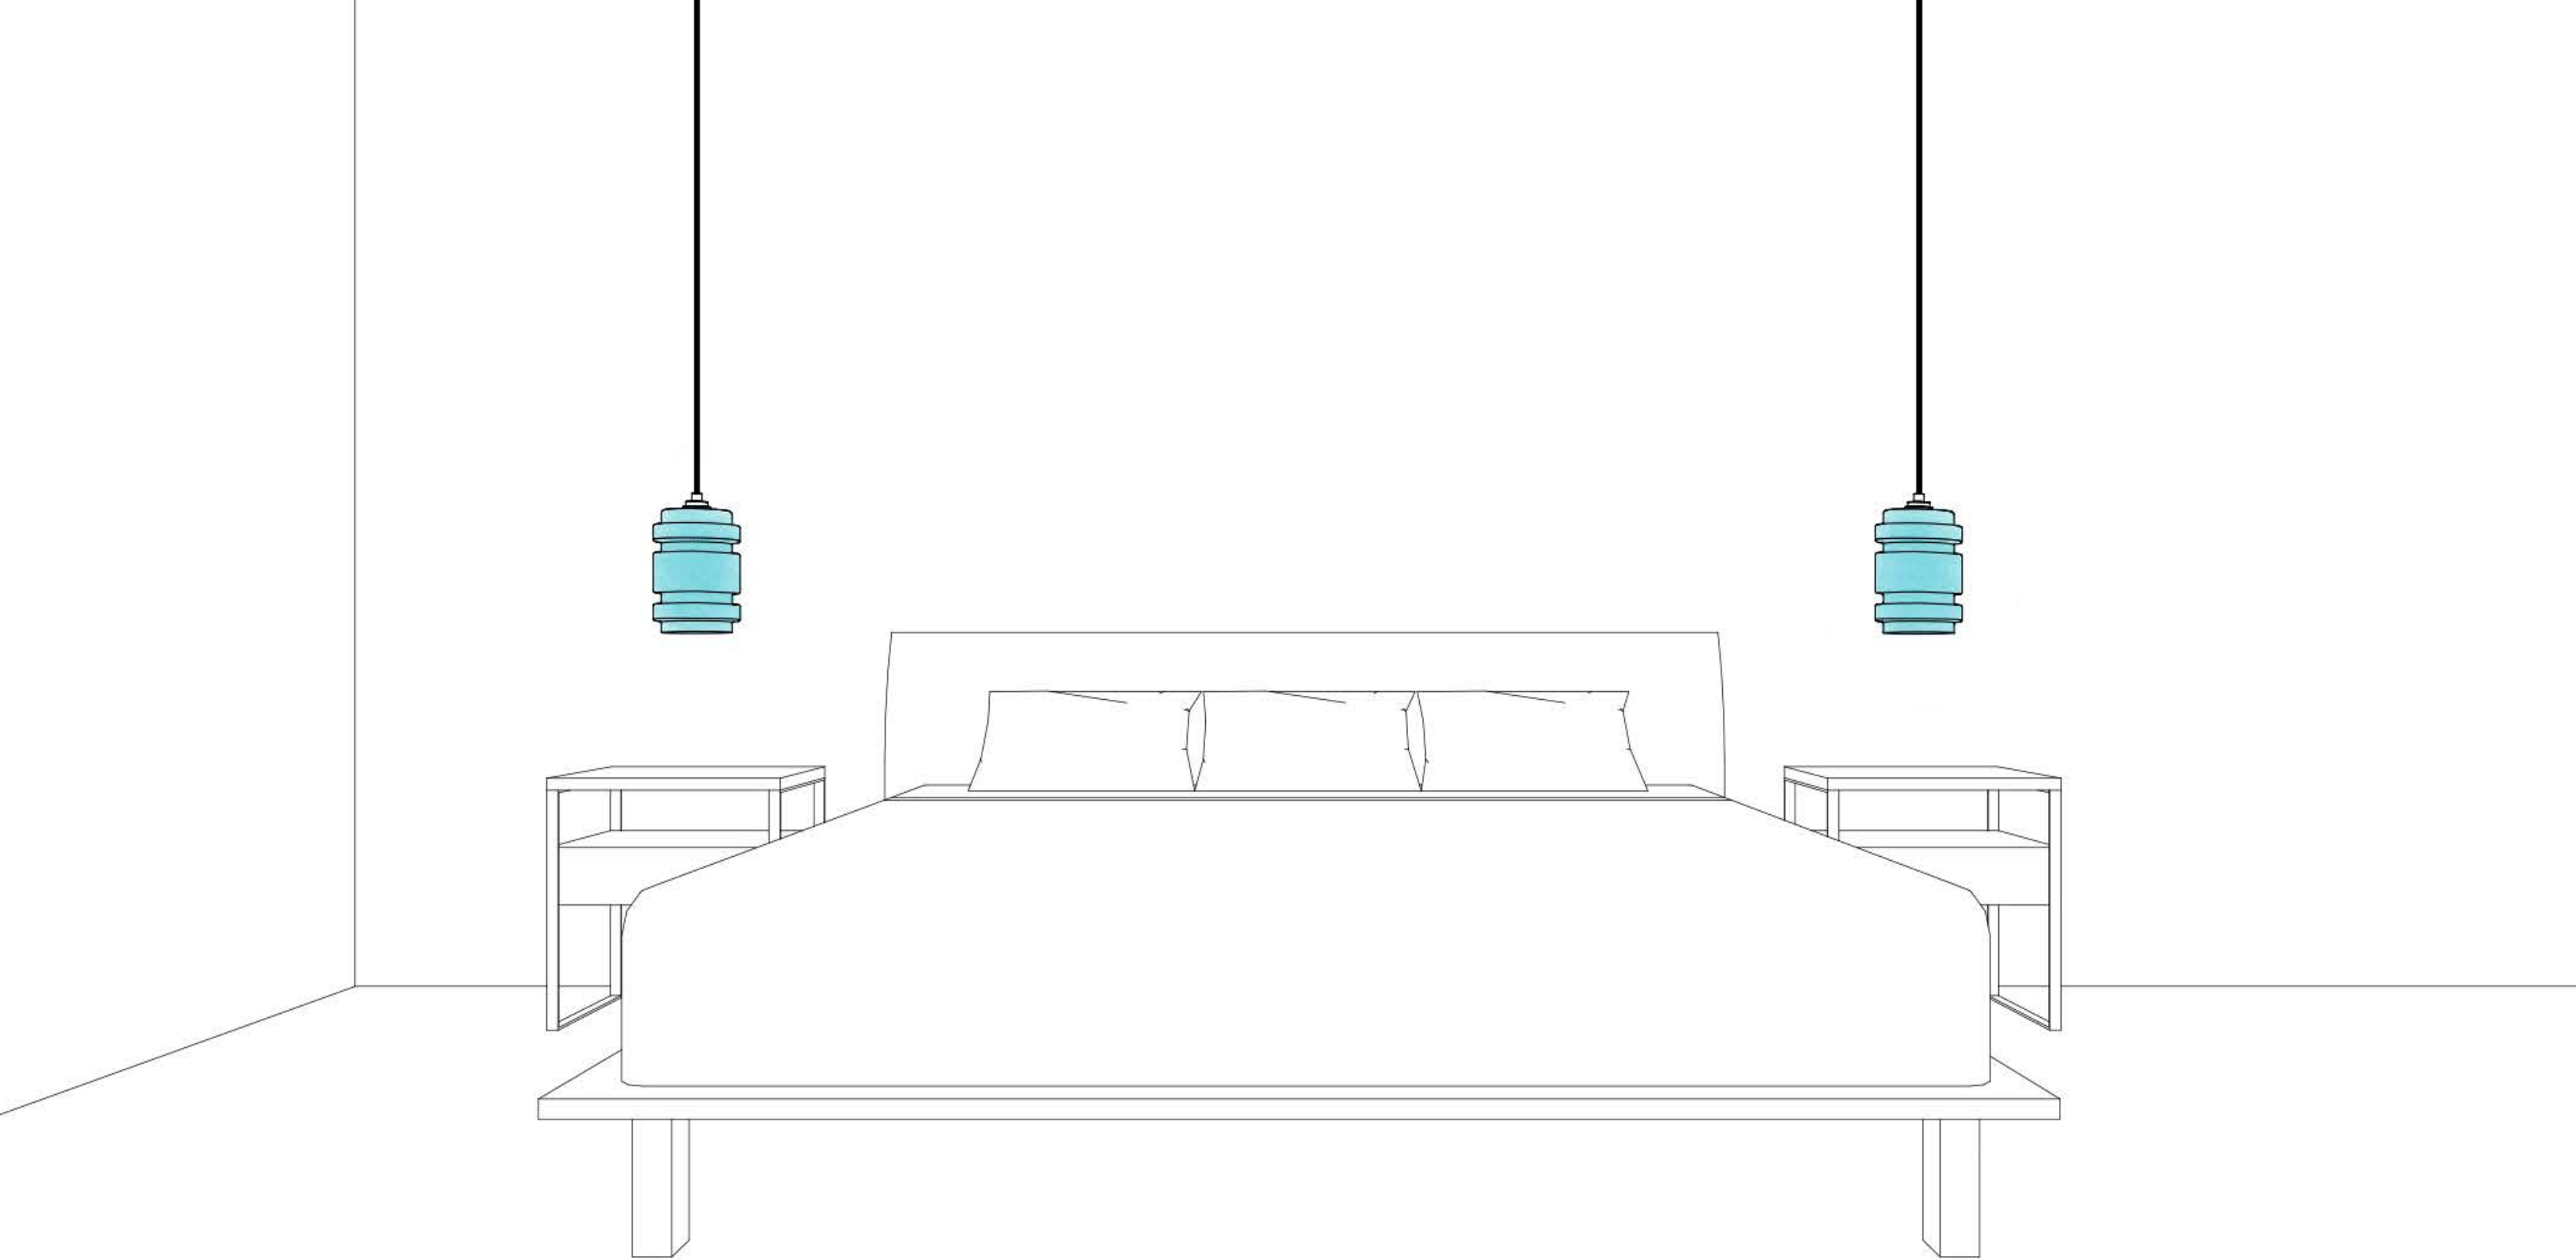

BAR LIGHTING

Make a bold statement with a hidden double track system as illustrated in the above drawing. A great way to show off Amber Trove and Gray Calla pendants.

KITCHEN LIGHTING

A linear 4 multi-fixture canopy with Smoke Axia pendants can hang beautifully above a kitchen island or counter. This arrangement also creates a subtle room divide.

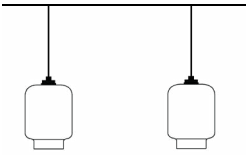

BEDROOM LIGHTING

The Delinea pendant in Condesa makes for a perfect bedside accessory when attached to individual junction boxes. This installation allows each to lightly float above end tables.
