

SPECIFICATION SHEET

PLUMEN 001 LOW ENERGY LIGHT BULB

BABY

Following the form of the Original Plumen 001 design, the Baby model shrinks into a more compact format. As either a single element or in series and clusters, the Baby Plumen 001 has all the character and dynamism of the Original but offers new options for shades and environments. The Baby Plumen 001 works like any other high quality low energy bulb - saving you 80% on your energy bills and lasting 8 times longer than a standard incandescent bulb.
