Art Deco and nature are the sources of inspiration for Seasons, a lighting collection that combines the stamp of a recognizable style with the richness of colors and shapes of the seasons of the year. The happy 20's are the framework in which the vitalist Art Deco emerged, recognizable by its aerodynamic lines and geometric patterns. A style that, fruit of a laborious process of engraving composes this fantastic collection of lights. Meanwhile, the seasons of the year are expressed through a masterful treatment of color that conveys the particular beauty of each of them with their changes during night and day or the place where they take place. Proposals that cover from greens of spring to gray-blue tones of winter. Colors applied by hand on ornamented fragments combined with glass elements.
